LITERATURE REVIEW

Bulich E. G., Muravov I. V.

Issues of chronic pathological conditions and courses of chronic diseases (literature review and personal experience)

1

THEORETICAL AND EXPERIMENTAL MEDICINE

Tishko T. T., Tishko D. N., Titar V. P., Prykhodko O. O., Bumeister V. I.

Application of digital holographic interference microscopy and electron microscopy to study of rats' erythrocytes owing to the influence of heavy metals' salts

22

Ohienko M. M., Bumeister V. I.

Stimulation of reparative regeneration of the young rat's tibia injured by severe dehydration

30

Romaniuk A. M., Moskalenko Yu. V., Shkandala A. Yu.

Chemical composition of testes of immature rats in conditions of elevated intake of heavy metals salts in the body and its correction

39

CLINICAL MEDICINE

Shevchenko O. A., Dorogan S. B., Kaniuka H. S., Gubar I. A., Prunkevych O. G., Golovatenko M. K.

The integral estimation of perceived discomfort condition of the uranium processing enterprise employees and city residents with artificially increased natural source of radioactivity

50

Nishanbaev R. T., Takhirova R. N., Umarova M. S., Tashmetova B. R.

Characteristics of glycolix in erythrocytes' membranes in children of early age with complicated pneumonia

58

Loboda A. M., Markevich V. E.

The diagnostic value of markers of the central nervous system and kidney injury in neonates undergoing asphyxia

64

Chemych M. D., Malysh N. H.	
Modern epidemiological tendencies of shigellosis and salmonellosis	72
Volosovets T. N.	
Determination of the Herpesviridae family of viruses in samples of periodontal tissues and study of immunological parameters in patients with inflammatory and dystrophic-inflammatory periodontal disease, associated with persistent herpes virus infection	80
Pogorielov M. V., Gusak Ye. V., Babich I. M., Kalinkevich O. V., Kalinkevich A. N., Somokhvalov I. I., Danilchenko S. N., Skliar A. M.	
Trace elements sorption by the chitosan-based materials	88
Korepanov A. L.	
Effectiveness of sanatorium treatment of teenage boys with heart rhythm disturbances, depending on their level of physical development	100
Vynnychenko O. I.	
Intrathoracic stomach used for esophagogastroplasty: II. The stomach transplant width and pyloric drainage procedure impact on gastric emptying time	109
Humenna K. Yu., Sydorchiuk L. P., Andriets O. A., Bodnariuk O. I.	
Genetic markers of appendages inflammation in the puberty age girls	118
Chumak Yu. Yu.	
Dynamics of tromboxan B ₂ in patients with bronchial asthma, combined with non-alcoholic steatogepatitis during treatment	127
Parkhomenko O. M., Dosenko V. Ye., Ataman O. V., Garbuzova V. Yu.	
Association analysis of the Arg325Gln polymorphism γ -glutamylcarboxylase gene with acute coronary syndrome in patients with normal and high blood pressure	132
